Goals and Objectives

Participants will:

Learn the developmental progression of visual skills

Understand the definitions of visual perception, visual motor, oculomotor, binocular and sensory skills and the PuzzleArt products that will help develop/improve them

Practice conducting a quick visual screening tool to be used in conjunction with clinical assessment and standardized tests as well as three PuzzleArt Sensory Protocols

Explore the relationship of visual skills to reading, writing and daily life skills

Discover a new form of integrative therapy

Acquire the skills to use a minimum of nine PuzzleArt Therapy products

Our six credit hours of training will give you the tools, techniques and materials to begin screening, assessing, and treating both children and adults with a variety of abilities. You will be able to use the PuzzleArt Therapy System concepts and products immediately in your practice.

PuzzleArt Therapy System products are provided with the 6 credit course. Participants take home our PuzzleArt Therapy Starter Program that can be used immediately for assessment and therapy:

- ❑ PuzzleArt Discovery Checklist for Visual Skills with our StickyStick Program
 - ❑ Full color PuzzleArt Therapy Activity Book Sampler with hundreds of activities
 - ❑ PuzzleArt Challenge Grid Sampler - works on 20 skills including form constancy + 3D
 - ❑ Training day materials in handy binder
- Total Value \$200.00**

Cost of the PuzzleArt Therapy Training Program

\$265 for the six hours of training includes: networking, handouts and PuzzleArt products valued at \$200. Coffee, tea, snacks and kosher lunch will be provided.

Individual cases can be discussed with our professionals. Begin to use the program with your population the very next day. Learn a new technique, broaden your training, and help your client/patient/student populations in an innovative colorful and fun way. Certificate of Level One completion presented at end of the course. **REGISTER: 516.695.3110**
